

ADGS DESIGN SUBSCRIPTION SERVICE

SR-DSS-PLATINUM-YR, SR-DSS-GOLD-YR,
SR-DSS-SILVER-YR, SR-DSS-PLATINUM-MO,
SR-DSS-GOLD-MO, SR-DSS-SILVER-MO

Advanced Detection Global Services (ADGS) Design Subscription Service is a value-added service that provides Aspirated Smoke Detection (ASD) and Open Area Detection (OAD) design service based on an annual subscription. This service is customer-oriented, to ensure they receive high quality and optimised designs that conform to local codes and multiple applications.

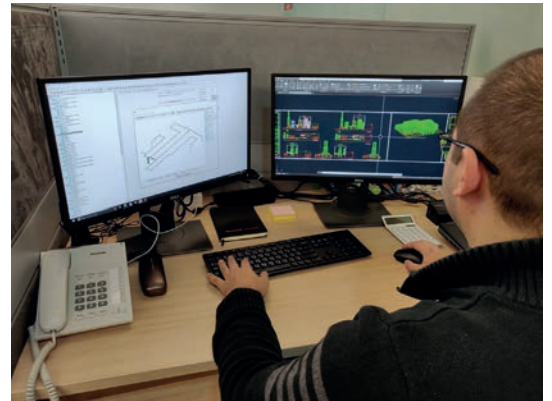

ADGS consists of a team of experts who have delivered thousands of projects globally for numerous applications. The team's objective is to cater for the customers' needs by providing them with world-class designs.

How does it work

There are 3 levels of subscription: Silver, Gold and Platinum. The integrator or distributor can buy the subscription level to suit their needs.

The subscription period is 12 months, after which the customer may continue with the same level or choose an upgrade.

Features

- 3 levels of subscription: Silver, Gold and Platinum
- Full Design Service – Taking engineering drawings of the project, ADGS will design ASD detection to meet a require local code or customer standard; provide pipe layouts on the drawings; the accompanying ASPIRE calculations; detailed Bill of Materials and any application based advise
- Design Review – ADGS will review the customer design and ASPIRE files (if provided) and provide feedback on system optimisation and performance
- Project Consultancy – Application advice and guidelines on detector type and initial BOM (detectors & accessories) based on application & code requirement

Key Benefits

- Better Value - Based on streamlined project and design consultancy delivering higher value
- Reliable and Accurate Designs – Design by expert professionals
- Assured Service - Quick turn around for budgeting and quotations
- Convenient Service - Less operational overhead due to elimination of per project transaction
- Flexibility - Based on business needs, customer can select most suitable subscription to maximize the benefits

Ordering Information

Ordering Code	Description
SR-DSS-PLATINUM-YR	Yearly ASD Design Subscription. Platinum
SR-DSS-GOLD-YR	Yearly ASD Design Subscription. Gold
SR-DSS-SILVER-YR	Yearly ASD Design Subscription. Silver
SR-DSS-PLATINUM-MO	Monthly ASD Design Subscription. Platinum
SR-DSS-GOLD-MO	Monthly ASD Design Subscription. Gold
SR-DSS-SILVER-MO	Monthly ASD Design Subscription. Silver

FAQ

1. What are the subscription options?

The service is a 12-month subscription that can be paid for either upfront at the beginning of the service period or on a monthly basis.

2. What happens if the subscriber consumes the entire number of detectors before the subscription expires?

If the number of detectors is consumed before the 12 months period is over, then the subscriber will need to renew the subscription.

3. What if the subscriber does not use 100% of their subscription? Could the remaining number of detectors be rolled over?

There is no roll-over of unutilised subscription. However, in case the subscription utilization in a year is less than 50%, then the subscription is extended for another 3 months at no extra charge.

4. How is the subscriber informed about their monthly usage and remaining balance?

Each month the subscriber will be issued an invoice detailing the used number of detectors and remaining balance.
