Spares, Repairs and Upgrades

Following cease of supply there will be a further 2-year supply of spares subject to component availability. Product documentation (e.g. Product Guide/User Manual) will be available through the website.

During this 2-year period, customers are encouraged to take advantage of the next generation product upgrade program, where available, which offers an incentive to eligible installations. Upgrade campaigns for aging installed base are rolled out at the discretion of AD.

Product Warranty

Standard product warranty will be honoured as per the applicable company policy for the relevant product line in one of the two ways below:

- A product failing within the standard warranty period will be repaired or replaced with the same or comparable product having the balance of the original warranty period.
- Should a product fail within the warranty period and not be repairable/replaceable then we will refund the full purchase price or issue a credit note as agreed with the customer.
