

iVESDA and XtralisMD End of Life (EOL) Notice

October 2023

Overview

As part of our on-going Advanced Detection Technologies portfolio management and streamlining our offerings, we have decided to discontinue two mobile applications: iVESDA and XtralisMD. These applications will no longer be supported by Xtralis and users are advised to uninstall them immediately.

Affected Products

The following table lists the applications that will be discontinued:

Application	Description
iVESDA	Mobile application for monitoring and maintaining VESDA smoke detection system.
XtralisMD	Mobile application to find industry or application specific resources for Xtralis products.

Effective Date

The affected applications will be discontinued effective immediately.

Contact

Please contact your local Xtralis office for queries in relation to this notice.
