OSID-WG

**Features**
- Designed to not interfere with the operation of the protected unit.
- Fast and easy installation.
- Simple removal for servicing the units.
- Constructed from 9 gauge galvanised steel rod.
- Plastic coated for durability and use in harsh environments.
- Protects against vandalism or accidental damage

**Application**
This steel cage is designed to protect OSID Imagers and Emitters from vandalism and accidental damage.

The cage is constructed of heavy gauge steel wire with corrosion resistant polyester coating.

Installation and servicing are easy.

Highly recommended for areas where abuse to beams is severe.
